

Build Therm Services Ltd

Environmental Management Policy Statement

As a company heavily involved in Government backed Carbon reduction schemes, the Directors and Management of **Build-Therm Services Ltd** are committed to maintaining certification and achieving full compliance with the Environmental requirements of BS EN ISO14001:2004 and in operating and delivering all works in a manner that demonstrates our concern for the environment.

Through our regular analysis of Environmental aspects, impacts and legal (and other) requirements, we strive to prevent all forms of pollution in the pursuit of our activities and for continual improvement in overall Environmental performance. This is demonstrated in the following policies, practices and objectives.

Organizational Responsibilities:

- **Build-Therm Services Ltd** is fully committed to the development, maintenance and implementation of a robust and efficient Environmental Management System (EMS) that meets the requirements of ISO 14001:2004 and is certified to that standard.
- **Build-Therm Services Ltd** is fully committed to ensuring that both current and any future operations and expansions will be planned and managed to be compliant with legislation and sensitive to the impact on both the immediate and indirect environment.
- The Managing Director takes overall responsibility for the development of Environmental policy and will provide sufficient resources for staff to carry out their duties with regard to this policy.

Build-Therm Services Ltd will continue to evolve the EMS, paying particular attention to the following:

- Ensuring that the company complies with, and where appropriate, exceeds the statutory requirements of applicable national and international environmental legislation.
- Establishing appropriate environmental performance indicators along with associated improvement targets.
- Seeking the highest operational standards at all times and regularly auditing and reviewing environmental performance.
- Providing training to **Build-Therm Services Ltd** personnel to enable them to use sound environmental policies in their day to day operations.
- Using products and services from suppliers whose environmental policies are compatible with our own.
- Providing information to, and being co-operative and proactive with, those interested in the environmental performance of the company, including regulators, customers, suppliers, the local community and other outside agencies.
- Seeking to reduce our carbon footprint by the more efficient use of energy.

A handwritten signature in black ink, appearing to be 'Agron Gjoka', is written over a horizontal line. The signature is stylized and somewhat abstract.
